---

## 9) MEDIA LIBRARY (COMMON)

Entity: Media - id - file\_url - file\_type - alt\_text - size - uploaded\_at

---

## 10) IMPORTANT DESIGN RULES

- Har page **API-driven** render hogi
  - Content aur layout alag rahenge (Blocks)
  - SEO har page par controllable hogta hoga
  - Legal documents **versioned** honge
  - Same schema C# aur Python dono main reuse ho saktा hai
- 

Yeh saqima **real SaaS production** ke liye enough hai — is se seedha database, APIs, aur admin panel ban saktा hai.
